## Description

Riptide Terrova answers every question and leaves no doubt. Power? Itâ€™s got 55 pounds of thrust. Control? i-Pilot GPS trolling system including Spot-Lock, and stow and deploy it effortlessly with new Lift-Assist Design. And stealth? Itâ€™s a RiptideÂ®. Enough said.i-PilotÂ® Linkâ„¢ Integrated GPS Trolling System: i-PilotÂ® Linkâ„¢ gives you unprecedented control over your boat by linking your trolling motor to your HumminbirdÂ® fish finder. Control your trolling motor from Linkâ€™s color touch-screen remote or the Humminbird. You can set Spot-Locks, record paths, follow depth contours, automatically navigate to your favorite spots, control speed and steering, and more.Spot-Lock with Jog: Spot-Lock will hold you in place with unparalleled GPS accuracy. Available on i-Pilot GPS system that is pre-installed, Spot-Lock gives you the power to stay right on top of any productive fishing spot, without touching your trolling motor. With the included heading sensor, you can use Jog to move your Spot-Lock location five feet in any direction. Activate Spot-Lock from the i-Pilot remote or Humminbird fish finder.AutoPilotâ„¢: Automatically navigate your boat in any direction you choose. Just point the head of your trolling motor in the direction you want to travel, activate AutoPilotâ„¢, and your trolling motor will keep you on that heading automatically, even correcting for wind, waves and current.Push-to-Test Battery Meter: Press a button to get an instant âœœstage of chargeâ€• reading.Advanced Corrosion Protection: RiptideÂ® motor lower unit housings are grit-blasted, then coated in aluminum to prevent oxidization and rust. Then, a final layer of powder coat paint provides the ultimate protection.Digital Maximizerâ„¢: Provides up to 5 times longer run time on a single battery charge. These variable speed trolling motors let you dial in your exact speed, and they deliver only as much power as you need, helping to conserve your battery for a full day of fishing.Weedless Wedgeâ„¢ 2 Prop: With swept-back flared blades to power through anything without battery-draining chopping and hacking, the Weedless Wedgeâ„¢ 2 is one of the most trusted props in fishing.Indestructible Composite Shaft â€• Guaranteed for Life: At the core of your Minn Kota trolling motor is an indestructable composite shaft. Itâ€™s a Minn Kota exclusive, and we guarantee it for life.Mobile App Compatibility: Control i-Pilot directly from your AppleÂ® or Androidâ„¢ device with our mobile app. You get quick command of speed, steering, Spot-Lock and Advanced AutoPilot â€• plus the ability to update i-Pilot software.Cool, Quiet Power: Every Minn Kota lower unit runs cool to extend trolling motor life, and stays quiet.

Model	Riptide Terrova 55 lb. / no FP / i-Pilot &Prime;
