

MotorGuide Tour Edition

POA

Specifications

Boat Details

Price	POA	Boat Brand	Motor Guide
Model	Tour Edition	Length	0.00
Year	2023	Category	Boat Engines and Outboards
Hull Style	-	Hull Type	-
Power Type	-	Stock Number	0
Condition	New	State	Victoria
Suburb	MILDURA	Engine Make	-

Description

Is the trolling motor really one of the most important pieces of equipment on your boat? It is when your livelihood depends on it. At MotorGuide, we understand what's most important to our users. It comes down to whether or not your trolling motor performs. It's that simple. Touring professionals are always looking for an edge, and with MotorGuide's Tour Edition, they've found it.

19 Etiwanda Ave Mildura VIC 3500

Every Tour model combines the Digital advantage with our stainless steel shafts, metal pedals and heads. What is Digital? MotorGuide Digital monitors your motor's amp-draw, heat dissipation, output, and other vital parameters, resulting in a cooler-running, more durable motor with an extended service life. Digital is a self-contained, sealed module in the lower unit that brings all vital motor components together in one protected location, while eliminating outdated analog circuit boards and their related components. Digital allows you to dial into the precise speed you are searching for, and in turn results in longer lasting battery life.

Our trolling motors are more than tough, they're virtually indestructible. That's the Tour difference. Only from MotorGuide.

FeaturesStainless steel shafts and components, metal head, and pedal make this the toughest trolling motor ever.Digital power from 75 to 109 pounds of thrust with 24 or 36-volt options.Completely sealed Digital module is protected from heat, moisture, corrosion and shock, greatly improving durability.MotorGuide Digital efficiency results in sustained battery life and more time on the water.Soft-start feature ramps up power, creating smoother initial motion.Quiet, smooth variable-speed operation lets you get closer to the fish.Machete III Prop runs quiet and has a smaller diameter than two-blade designs for the ultimate shallow water performance.Pull-pull adjustable steering with stainless steel pulleys is known for its feel and precision, limiting torque and fatigue.Compact, hydrodynamic, lightweight lower units.MicroSwitch is designed to withstand the demands of harsh, wet tournament conditions.Gator Spring Mount features extruded aircraft aluminum for rock-solid durability. A spring return linkage make underwater obstacles a thing of the past.20.8 Gator Breakaway mount features a center decket and a hinged door for easy motor removal.
